

**Perfectly portable.
Perfectly powerful.
Perfectly priced.**

MacBook Air is completely transformed by the Apple M1 chip — giving you a giant leap in performance. And with limited-time pricing, it's more accessible than ever.

Guaranteed MacBook Air Buyback for Education*

- Buy MacBook Air from \$459 per device as first payment (due within 30 days of delivery; list price from \$779)
- Pay remaining balance from \$320 per device after three years
- Must buy minimum 100 MacBook Air devices in a single order by September 23, 2022, to qualify for pricing
- Three-year AppleCare+ for Schools can be added

After three years of use:

- **Option 1:** Retain ownership and continue to use your devices.
- **Option 2:** Trade in and get reimbursed from \$320 for each device returned in good working condition.
 - Return packaging and shipping provided at no additional cost

MacBook Air gives teachers the power to be productive. On the go, at a desk, or at home, teachers can use built-in apps, such as Keynote, iMovie, and GarageBand, to create engaging learning experiences. With a silent, fanless design, the ability to instantly wake from sleep, and up to 18 hours of battery life,** MacBook Air is the ideal choice to support teachers all day as they manage classroom and personal productivity. And it's perfect for the apps and workflows that you know and love, including Google Docs, Google Drive, Microsoft Office, and Dropbox. And with the power of the Apple M1 chip and macOS Monterey, teachers can now run many iPad apps directly on MacBook Air.

Powerful and easy to use, MacBook Air gives students the tools they need to be creative, productive, and collaborative — from anywhere.

With streamlined wireless setup using Apple School Manager and mobile device management, deploying MacBook Air is seamless for IT, and can save time and resources. The M1 chip features a Secure Enclave coprocessor and dedicated storage encryption engine, making MacBook Air even more secure. And with AppleCare+ for Schools offset service and support, you always have peace of mind.

Take advantage of this limited-time, exclusive offer today by contacting your Apple account executive or emailing us at appleeducation@apple.com.

* From 12/1/21 to 9/23/22, qualifying public, tax exempt education institutions that buy at least 100 MacBook Air devices (any configuration) in a single order from an Apple account executive or by emailing appleeducation@apple.com will be able to buy each device for an initial payment starting at \$459 for a MacBook Air 128GB model with \$779 education list price and no payment due at time of order (actual list and offer prices will vary based on specific configuration selected; contact your Apple account executive for details; applicable sales tax or other charges may apply; optional AppleCare+ for Schools can also be purchased for additional \$140 per device). Institution will be invoiced for total initial purchase amount which must be paid within 30 days of delivery of devices. Remaining balance (total education list price - initial payment = remaining balance) is due after 3 years from date of delivery (remaining balance will accrue no interest and will vary based on configuration selected; \$320 remaining balance is example for MacBook Air 128GB in good working condition). At the end of 3 years, pay the remaining balance per device and either (a) keep them, or (b) if they are in good working condition (as defined by Apple) trade in the devices to Apple and get the trade-in value reimbursed per qualifying device upon Apple's receipt of devices (value will vary based on configuration and condition). Financing options are for informational purposes only. Nothing herein is a commitment to finance. Apple reserves the right to cancel or change this offer without prior notice. Should you choose to lease or finance through Apple Financial Services (AFS), this proposal: (a) is subject to final credit approval and the delivery of executed documents (in form and substance satisfactory to AFS); and (b) is not a statement of all terms and conditions of any lease or finance agreement.

**Testing conducted by Apple in October 2020 using preproduction MacBook Air systems with Apple M1 chip and 8-core GPU, configured with 8GB of RAM and 512GB SSD. The Apple TV app movie playback test measures battery life by playing back HD 1080p content with display brightness set to 8 clicks from bottom. Battery life varies by use and configuration. See apple.com/batteries for more information.
